HEALTH AND SAFETY AND TECHNICAL INFORMATION

DYE-FIX

Product:	Dermafix WE Liquid. Manufacturer Sandoz Chemicals (UK) Ltd. Composition Cationic Methylolamide Content 40 to 50% EC Label R36, S26, S39
Physical Properties:	Form Aqueous Solution Colour Colourless Odour Mild Viscosity 22 at 20°C PH Value 5 - 7.5 at 20°C
Hazards Identification	Irritating to Eyes
Application:	Once dyeing has been carried out and allowed to dry, simply apply a coating of Dye-Fix with cotton wool or a lint-free cloth to the leather. Once dry the leather can be finished in the normal way.
Packages:	150ml Plastic Bottles
Storage:	Dry, cool conditions.
Handling:	No special precautions required. Practise good standards of industrial and personal hygiene.
Spillage:	Contain spillages. Do not let the liquid drain into rivers, ponds or sewer systems. Small spillages may be hosed down with water before it dries, subject to Local Water Authority permitting.

FIRST AID TREATMENT

Inhalation:	Immediately seek fresh air after inhaling of dust, vapour or aerosol
Ingestion:	If swallowed, seek medical advice immediately (treat symptomatically)
Skin Contact:	Rinse contaminated skin with plenty of water.
Eye Contact:	Irrigate with clean running water. Obtain medical attention.
Fire Fighting:	All extinguishing media suitable

NB: The information supplied is, to the best of knowledge, true and accurate, but recommendations or suggestions made are without guarantee since the conditions of use are beyond our control.
