

T1: Phase Box Folding Instructions

The precut pattern of your folder should be placed on the table with the white side facing up.

Fold the double base back onto itself. Take special care when folding the double score, and use a Teflon Folder for extra sharp creases.

Fold side walls and tabs each at 90° angles.

Pre-crease the closure tab for easy insertion.

Fold the remaining sides, each at 90° angles.

Closure tab should fit snugly into void, and hold the box in place.
