4. First aid measures

Inhalation
Persons feeling indisposed must be placed in fresh air and kept under surveillance.

Ingestion
Drink a couple of glasses of water or milk.

Skin
Flush skin with large amounts of water and remove contaminated clothing, watches etc. simultaneously.

Eyes
Remove any contact lenses. Bend head backwards, open eye wide and flush with water for a few minutes or till discomfort has disappeared. Seek medical advice if discomfort continues.

Other information
When obtaining medical advice, show the safety data sheet or label. Symptoms: See section 11.

5. Fire-fighting measures

The product is not flammable. Extinguish with powder, foam, carbon dioxide or water mist.

6. Accidental release measures

Contain and absorb spill with sand or other absorbent material and transfer to suitable waste containers. See section 13 for instructions on disposal.
Avoid release of significant quantities of the product to water sources, sewers or the environment in general. If the product contaminates sea, lakes or drains, inform appropriate authorities in accordance with local regulations.

7. Handling and storage

Handling
Avoid contact with skin and eyes.

Storage
Keep container tightly closed, dry and out of reach of children. Away from food.

8. Exposure controls/ personal protection

Precautions for use
Provide good airing. Running water and eye wash equipment should be available.
Dust, which is unhealthy, is produced when treated surfaces are grinded. Provide good ventilation. Use breathing mask if necessary.

Respiratory protection
When dusty work, use breathing mask with particle filter P2.

Gloves and protective clothing
Use protective gloves of e.g. vinyl. Follow the glove suppliers instructions and information concerning use, break-through time etc.
Wear suitable protective clothing.
Eye protection
Wear eye protection if there is a possibility of direct contact or splashes.
Wear safety goggles if there is a risk of dust contact with eyes.

Occupational exposure limits
Contains no substances subject to reporting requirements.

9. Physical and chemical properties
Appearance: White paste  Relative density (kg/l): 1.7
Odour: None  pH: 7.9-9.2
Solubility: Emulsifiable with water  Org. solvents (weight%): 0
  Water (weight%): < 30

10. Stability and reactivity
Stable at normal handling. At high temperatures health-endangering decomposition products such as carbonmonoxide and carbondioxide may occur.

11. Toxicological information
Acute
Inhalation
Prolonged use in small, closed rooms may cause malaise.

Ingestion
Ingestion of large quantities may cause temporary malaise.

Skin contact
Prolonged or repeated contact may cause defatting, drying or irritant dermatitis.

Eye contact
Splashes or dust in the eyes may cause irritation and smarting.

Risk of sensitization
Contains Isothiazolinone (CMT/MIT, CAS-No. 55965-84-9) that may cause allergic reaction in contact with skin.

Long-term effects

12. Ecological information
The product is not classified as harmful to the environment according to the current legislation. The product should not be allowed to enter drains or watercourses.

Ecotoxicity
Ecotoxic information on the product itself does not exist.

13. Disposal considerations
The product is not dangerous waste. Should be disposed of in accordance with local regulations. Liquid residues of the product is classified as:
EWC-code: 08 04 10 Waste adhesives and sealants other than those mentioned in 08 04 09.

14. Transport information
The product is not covered by the rules for transport of dangerous goods by road and sea according to ADR and IMDG.

15. Regulatory information
Hazard designation: It has been assessed that the product shall not be classified as hazardous according to the national classification and labelling rules.

Other labelling

Chemical safety assessment
Chemical safety assessment has not been performed.

16. Other information
Restrictions on use

Training requirement
No special training is required, but a thorough knowledge of this safety data sheet should be a prerequisite condition.

Sources used
The supplier’s safety data sheets and current legislation.
Other information
The safety data sheet is based on EU and national legislation. The user's working conditions are out of our control. The information should be considered as a description of the safety demands put on the product and not as a guarantee of the properties of the product.

Full text of the R-phrases that are stated in section 3.
No R-phrases.
