PräGnant XS

Blocking press

The **PräGnant XS** is a manual foil-blocking press for one-off titles and name stampings and was specifically designed for craft binders. The typeholders are self-centering which qualifies the **PräGnant XS** to be used wherever frequently changing titles or names have to be stamped.

The book case (or other stamping products) is placed upright into the machine so that the blocking process may be observed all the time and – if necessary – be corrected or repeated. Expensive faulty blockings are therefore eliminated.

The good view onto the product makes the machine also suitable for other individual works (gilding, blocking ornaments etc.).

The **PräGnant XS** may be used in any bindery, in arts and craft as well as in copyshops. The quick change of type as well as the easy handling of the machine and its accuracy allow high-quality stampings.

The standard version of the **PräGnant XS** is the **PräGnant XS-E**. It is equipped with an electrically heated, self-centering typeholder with 90 mm width and a thermostat to control the temperature of the typeholder.

Standard delivery also includes 1 initials typeset V-59 made of zinc-aluminium in size 16 pt, style Diethelm Antiqua (optionally Helvetica Mager), 1 angle plate support, 30 mm to stamp on ready books, 1 small magnet to hold the product, 1 stainless steel ruler, 30 cm, 1 pair of plastic tweezers and a starter set of hot-stamping foils.

Other versions:

PräGnant XS-E110

Same features as **XS-E**, but equipped with an electrically heated typeholder with 110 V and a multi-range thermostat to heat this typeholder.

PräGnant XS-U

Same features as **XS-E**, but equipped with an unheated, self-centering typeholder of 110 mm width and without thermostat

Optional accessories:

Heating plate - to heat up the unheated typeholder of the **PräGnant XS-U**

Transport case with extra case for accessories and trolley handle for all **PräGnant XS** models

Technical data:

Dimensions:

ca. H43 x D36 x W25 cm

Weight: approx. 24 kgs

Power supply

(Type XS-E only):

230 Volt (A.C.)

Stamping table: H300 x W200 mm

inclination of table adjustable, with adjustable support and lateral scales

Pressure: approx. 250 kp by means of a knee lever

Subject to technical alteration
